Meet LUCAS: Your Automated Workforce

Lytewave Unified Client Automation System

LUCAS is not just software; he is your invisible employee. Designed for Premium Clients, LUCAS automates the repetitive, manual tasks that slow your business down. From sending invoices to organizing data, LUCAS works 24/7 so your team doesn't have to.

How LUCAS Helps You:

- **Automated Communication:** Sends invoices, reminders, and welcome packs via transactional email.
- **Data Processing:** Reads inputs from your operations and updates your SQL databases automatically.
- **Smart Reporting:** Compiles weekly PDF reports on business performance without human intervention.

LUCAS Implementation Pricing

Bringing automation to your business requires a tailored approach.

Phase 1: The Blueprint (Data Consultation)

Before we build, we map. We analyze your current manual processes, identify bottlenecks, and design the logic for your automation.

- **Cost: R5,000.00 (One-Time Fee)**
